Project 1: UI Design for website

Project Title: Landing Page UI Design for Fast Bites – A Fast Food Restaurant Website

### Project Objective:

To design an attractive, responsive, and user-friendly landing page for a fast food restaurant that highlights its menu, promotions, and contact information to attract more customers online.

### Technologies to Use:

- Canva (easy for beginners)

### Tasks Breakdown:

- 1.Design a header with the restaurant's logo and navigation menu.
- 2.Create a hero section with a catchy tagline, featured dish, and call-to-action button.
- 3.Design a menu preview section with 4–6 popular items including images, names, and prices.
- 4.Add a promotional banner area to highlight offers or discounts.
- 5.Create an "About Us" section with text and visuals to share the restaurant story.
- 6.Design a testimonial slider with 2–3 customer reviews and ratings.
- 7.Add a footer with contact information, social media icons, and opening hours.

### Submission:

Submit the UI in PDF file or
